NOTES:

1. Wear the Air Force Distinguished Service Medal (DSM) ahead of a Distinguished Service Medal awarded by the Army, Navy, and Coast Guard.
2. Awarded only by the Navy, Marine Corps and Coast Guard.
3. A few of the decorations awarded by federal agencies are: Medal of Merit, National Security Medal, Presidential Medal of Freedom, Medal of Freedom, Gold and Silver Lifesaving Medals, NASA Distinguished Service Medal, Public Health Service Decorations (Distinguished Service Medal, Meritorious Service Medal, Commendation Medal); US Maritime Service Decorations (Distinguished Service Medal, Meritorious Service Medal, Mariner's Medal). Do not wear these decorations unless you wear US military decorations and service medals. If you wear more than one, arrange them in the order of acceptance. If you wear two or more from the same agency, that

agency decides the precedence. Ribbons must be the same size as Air Force ribbons. Wear only those decoration ribbons awarded by federal agencies and earned while in military service.

4. The American Campaign Medal, Asiatic-Pacific Campaign Medal, and European-African-Middle Eastern Campaign Medal are World War II Theater Campaign Medals. If authorized more than one, wear them in the order earned.
5. When awarded more than one clasp, wear in the order earned on the suspension ribbon. Do not wear clasps on the service ribbon.
6. Do not wear these decorations unless you wear other US military decorations and service medals. When authorized more than one, wear them in the order earned. If authorized more than one from the same foreign country, wear them in the order the country prescribes. On special occasions and as a matter of courtesy to a given country, you may wear the decorations of that country ahead of all other foreign decorations.
7. Before you wear foreign service ribbons, meet conditions in AFI 36-2803. When authorized to wear more than one, wear them in the order earned.
8. Includes ribbons such as: Multinational Force Observers Medal and Inter-American Defense Board Medal. Wear these ribbons in the order earned and ensure they are the same size as Air Force ribbons.

Figure 4.2. Placement of Devices on Ribbons and Medals.

SEPARATE DEVICES:

SINGLE CONSTRUCTION:

NOTES:

1. Wear a maximum of four devices on each ribbon. Place silver devices to the wearer's right of bronze devices. Replace the bronze device with a silver device after receipt of the fifth bronze device. Place clusters horizontally and tilt slightly downward to the wearer's right to allow maximum number of clusters and other devices on the ribbon. Tilt all or none.
2. If all authorized devices do not fit on a single ribbon, wear a second ribbon. Wear a minimum of three devices on the first ribbon before wearing a second ribbon. When wearing the second ribbon, place after the initial ribbon. It counts for one award. When future awards reduce devices to a single ribbon, remove the second ribbon.
3. Wear regular devices on regular medals and regular ribbons; miniature devices on miniature ribbons and medals. Wear all the same size devices.
4. There are two methods of affixing devices on ribbons: a separate device or single-constructed device (two or more devices manufactured together). When affixing separate devices to the ribbon, space devices equally. If using single-constructed device, center it. If using single-constructed device on one ribbon, use it on all ribbons. Place silver clusters, stars, etc. above similar bronze devices. **EXCEPTION:** Mix single-constructed devices with separate devices if the com-

bination of devices authorized is not available as a single-constructed device. In this event, place the devices close to one another so they give the appearance of a single-constructed device as long as the devices are the same; i.e., bronze cluster and silver cluster. Wear only separate devices on medals. Wear a maximum of four unless wearing more prevents adding a second medal. Wear ribbons awarded by other Services with appropriate device that Service authorized.

WITH HOLDING BAR: The maximum length of holding bars for medals is 2 3/4 inches. When wearing fewer than five miniature medals or four regular-size medals, expose all. If wearing more than four miniature or three regular medals on one row, each medal equally overlaps the medal to the left. The overlap does not exceed 50 percent. Expose the medal nearest the lapel. Stack and center the second or additional row of medals upward. The medal overlaps approximately 50 percent of the ribbon on the row below.

WITH MOUNTING BAR: Wear the medal with the highest precedence on the top row nearest the lapel. Stack and center the second and additional rows of medals below. The medal will overlap approximately 50 percent of the ribbon on the row below.

INSIGNIA, BADGES, AND DEVICES

5.1. Wear of Grade Insignia. Members wear grade insignia as a distinctive part of the uniform. Office of Special Investigations (OSI) agents do not wear grade insignia unless AFOSI directs. AFVA 35-2, *Armed Forces Insignia*, depicts officer and enlisted grade insignia. [Chapter 2](#) of this instruction shows proper placement of grade insignia on uniforms.

5.2. Wear of First Sergeant Device . Those assigned to a first sergeant manpower authorization in a specific Air Force organization and have an approved school date for the First Sergeants Academy wear this device. When no longer assigned first sergeant duties, the member removes the device from the uniform. **EXCEPTION:** The Air Staff functional manager and enlisted instructors of the First Sergeant Course continue to wear the first sergeant device.

5.2.1. Description:

5.2.1.1. Service and Dress Uniforms. Silver or white, diamond-shape device with a blue, blue or black background; color and material are the same as rank insignia.

5.2.1.2. BDU. Dark blue, diamond shape with subdued olive green background; color and material are the same as rank insignia.

5.2.2. **Placement of Device.** Master Sergeants (MSgt) wear device 1/4 inch above center of V-shaped grade insignia or above star of new grade insignia. Chief Master Sergeants (CMSgt) and Senior Master Sergeants (SMSgt) wear the device centered above the star.

5.3. Name Tags. Laminated ultramarine blue plastic material with white, block-style letters engraved on the plastic and a clutch-type fastener. The tag is 3 3/16 inches long and 5/8 inches wide with 1/4-inch lettering. Make no deviations to the name tag (that is, emblems, flags, change in size or color). **EXCEPTIONS:** Use smaller letters to fit name within standard tag length and half-size letters if the name has more than one capital letter such as MacMANN. Non-physician providers, i.e., physician assistants, obstetrics and gynecological nurse practitioners, pediatric nurse practitioners, primary care nurse practitioners, and independent duty medical technicians (only when performing IDMT duties) wear two-line name tags to identify their profession. Services personnel wearing organizational uniforms may wear their rank designation on the same line as their last name, i.e., **SSGT BRANCH**.

5.4. USAF/NAME Tapes. Subdued olive green with flag-blue letters embroidered on tape. Tape is approximately 6 1/4 inches long and 1 inch wide with 3/4-inch lettering. Make no deviations to the USAF/NAME tapes. **EXCEPTION:** Use smaller letters to fit name within standard tape length.

5.5. Aiguillettes . Aiguillettes distinguish officer aides and attachés. The aide to the President and Vice President of the US, White House social aides and aides to foreign heads of state, wear aiguillette on the right; other aides and attachés on the left. Figure 5.1 shows wear criteria for dress and service aiguillettes.

5.6. Wear of Badges and Specialty Insignia on Service, BDU, and Dress Uniforms . [Table 5.1](#) and [Table 5.2](#) show placement and wear instructions for each authorized badge and specialty insignia. See

AFI 36-2923, *Aeronautical, Duty and Occupational Badges*, for award standards. See [Table 5.2.](#) for wear of medical and dental certification patches and badges.

NOTES:

- Members will conform with the same standards of appearance, military customs, practices, and conduct in uniform prescribed for active duty members.
- Title 10, U.S.C., Section 772 entitles members of the ANG to wear the uniform as prescribed for active duty members.
- State-appointed ANG officers without federal recognition do not wear the uniform or any distinctive uniform item. Newly appointed ANG officers granted temporary federal recognition by a federal recognition board wear the uniform.
- Enlisted ANG members wear the uniform on enlistment.
- Upon written request of the governor and the consent of the Air Force Chief of Staff, the Chief of the National Guard Bureau authorizes a state adjutant general, who holds a federally commissioned status in the Air Force, to wear the grade insignia of his or her state-appointed grade while occupying the federally recognized position on the state headquarters unit manning documents, provided that grade does not exceed Major General.
- Members receive the retired lapel button at retirement. Retirees wear the retired lapel button on the left lapel. Members whose terminal assignment is in a First Sergeant's manpower authorization may wear the diamond in all instances the uniform is worn.
- Retirees may wear civilian clothing when flying in military aircraft. They will present a favorable appearance in good taste. Members of the reserve components who are eligible to retire but are not at mandatory retirement age (60 years) do not wear the uniform while traveling on military aircraft.
- Honorably discharged members who served during World War II wear the Honorable Discharge Emblem on the left lapel.
- Installation commanders authorize such separatees to use military clothing sales stores (MCSS) to purchase uniforms and accessories required for special occasions such as military funerals, parades, or other ceremonies. Separatees purchase only the service dress or mess dress uniforms and accessories. Separatees may not purchase items commonly available from commercial sources. MCSSs establish adequate controls over quantities of uniform items each separatee pur-

chases. Commanders ensure separatees present proof of honorable discharge under honorable conditions and know current uniform and grooming standards.

Chapter 7

UNIFORM CHANGES AND SUPPLEMENTS

7.1. How To Recommend Uniform Changes . Submit proposals for new or changed uniform clothing items and wear criteria on an AF Form 1000, United States Air Force Suggestion, and process as indicated below. Process requests for reconsideration for disapproved proposals the same as initial proposals. They are exempt from the automatic higher level review provisions of AFI 38-401, The Air Force Suggestion Program.

7.1.1. Processing Suggestions. Host base MPF Customer Service Element considers each proposal. Base-level agencies, e.g., hospital, and safety, provide comments as needed. The installation commander signs proposals recommended for approval with rationale for approval and forwards to the suggestor's MAJCOM Director of Personnel. The MPF Chief has disapproval authority. Disapproval is appropriate when the suggestion is not a new idea, when it duplicates a previous AF Form 1000 with "ownership" rights, or when the proposal clearly is not beneficial or desirable. MPF Chief forwards recommendations for disapproval based on other reasons with the statement "not recommended for adoption, but disapproval not within the authority of this office" on AF Form 1000-1, Suggestion Evaluation and Transmittal.

7.1.2. Uniform Boards. MAJCOMs conduct their own uniform boards to evaluate each proposal. The commander, vice commander, or chief of staff signs proposals recommended for approval and sends them to the Air Force Uniform Board (AFUB), HQ USAF/DPPU, 1040 Air Force Pentagon, Washington D.C., 20330-1040. The AFUB evaluates each proposal and makes recommendations to the Chief of Staff, USAF. If the MAJCOM disapproves the suggestion, return it and the reasons for disapproval through command channels.

7.1.3. Air Staff, Field Operating Agency (FOA), and Direct Reporting Unit (DRU) Recommendations. FOA and DRU commanders, Air Staff Deputy Chiefs of Staff (DCS), and their assistants, submit recommendations directly to the AFUB.

7.1.4. Air Force Academy Uniform Board. The Superintendent, United States Air Force Academy (USAFA), appoints an Air Force Academy Cadet Uniform Board to review all proposed changes to Air Force cadet and preparatory school student uniforms. The Superintendent may approve changes regarding USAFA cadet and preparatory student uniform accessories and insignia, but must send other proposed changes to the Chief of Staff, USAF, for final approval. Proposed changes to the standard Air Force uniform or wear criteria are submitted directly to the AFUB.

7.1.5. The AFUB. This board, composed of senior Air Force personnel, ensures the Air Force uniform is plain and distinctive, and develops consistent policy on all uniform matters. It reviews and selects items of uniform clothing, accessories, and insignia which the Chief of Staff, USAF, approves. AFUB changes are not effective until incorporated into this instruction.

7.1.6. Test Uniforms. Members wear experimental uniform items as part of a AFUB-authorized test program. Members wear test uniform items approved for Air Force use after the test period. HQ USAF/DPPU determines which individuals and units or commands will test new uniform items.

7.2. Processing Supplements:

7.2.1. Include all rules for local wear and additional uniform guidance in a supplement to this directive. Refer to AFI 37-160, vol 1, table 3.2, The Air Force Publications and Forms Management Programs--Developing and Processing Publications.

7.2.2. MAJCOMs approve their base supplements if instructions are within the guidelines of the basic directive. Coordinate any proposals deviating from current policy with Headquarters Air Force Personnel Center, Personal Programs Branch, (HQ AFPC/DPSTS), 550 C Street West, Suite 30, Randolph Air Force Base, Texas 78150-4714 before incorporating them into the supplement. DPSTS approves MAJCOM or FOA supplements. Upon publication, send one copy and any changes to DPSTS.

7.2.3. Proposed ANG unit supplements are submitted through the state Adjutant General to the Air National Guard Readiness Center, ANG/DPPUR, 3500 Fetchet Avenue, Andrews AFB MD, 20762-5157 for approval. Each unit sends a copy of its approved published supplement and changes to the appropriate Adjutant General and Air National Guard Readiness Center, Director for Personnel, upon publication.

NOTES:

1. **Unauthorized** (content): Any member obtaining unauthorized tattoos will be required to remove them at their own expense. Using uniform items to cover unauthorized tattoos is not an option. Members failing to remove unauthorized tattoos in a timely manner will be subject to involuntary separation.

2. **Inappropriate** (military image): Members should not be allowed to display excessive tattoos that would detract from an appropriate professional image while in uniform. Commanders should use these guidelines in determining appropriate military image and acceptability of tattoos displayed by members in uniform. Air Force members with existing tattoos not meeting an acceptable military image should be required to (a) maintain complete coverage of the tattoos using current uniforms items (e.g. long-sleeved shirt/blouse, pants/slacks, dark hosiery, etc.) or (b) volunteer to remove tattoos(s). Depending on the circumstances, commanders may seek Air Force medical support for voluntary tattoo removal. Members who choose not to comply with acceptable military standards are subject to disciplinary action and involuntary separation.

3. Installation or higher commanders may impose more restrictive standards for tattoos and body ornaments, on or off duty, in those locations where the Air Force-wide standards may not be adequate to address cultural sensitivities (e.g.; overseas) or mission requirements (e.g.; basic training environments).

4. Members who receive tattoos/brands not meeting the standards after the effective date of this policy are required to initiate tattoos/brands removal upon notification by their Commander at their own expense (may not use Air Force Medical Centers for removal). Members not complying with these requirements will be subject to disciplinary action for failure to comply with Air Force Standards and may be involuntarily separated.

5. There may be situations where the commander can restrict the wear of non-visible body ornaments. Those situations would include any body ornamentation that interferes with the performance of the member's military duties. The factors to be evaluated in making this determination include, but are not limited to: impairs the safe and effective operation of weapons, military equipment, or machinery; poses a health or safety hazard to the wearer or others; or interferes with the proper wear of special or protective clothing or equipment (**EXAMPLE:** helmets, flack jackets, flight suits, camouflaged uniforms, gas masks, wet suits, and crash rescue equipment).
